

Lutron Sivoia Cable

- For Lutron Sivoia™ Electronic Shading Systems
- Specialized Cable Construction
- Four Shielded Control Pairs & Three Power Conductors
- Easy to Install
- Red Stripe for Quick Identification
- UL Rated

Sheer Sound's new Sivoia power and control cable has been designed to deliver a specialized cable interconnect solution for the wiring of Lutron Sivoia QED™ systems. Unlike general purpose cables, Sheer Sound™ Sivoia cable contains the exact amount of power and control element necessary for the operation of Lutron Sivoia QED™ system. As a result, the need to install multiple cable types is eliminated and installation time is significantly reduced and simplified. As with other Sheer Sound™ cable, the Sivoia cable features several other time saving features such as footage markers, a color coded and striped jacket, and easy-to-strip compounds. UL Rated, Sheer Sound's Sivoia cable can be installed a variety of environments.

Specialized Cable Designs that Simplify Complex Control Systems

Mechanical Specifications

Part #	Overall Diameter	Communication Elements	Power Elements	Ground Elements	Master Jacket (Type, Color)	UL Type	Approx. Weight
182LUTDS	.380	Conductors: 4 x 18 AWG (16x30) Stranded BC, 6.7 Ω/Mft Insulation: PE, .015" Violet, Yellow, Gray, Blue, 17.5pF/ft	Conductors: 2 x 16 AWG (26x30) Stranded BC, 4.0 Ω/Mft Insulation: PVC, .015" Red/White & Red	Conductors: 1 x 18 AWG (16x30) Stranded BC, 6.7 Ω/Mft Insulation: PVC, .015", Green/Yellow	PVC, Blue with Red Stripe	CL3 & CM	95 lbs/Mft
